<<...>> Dear Richard,

At the meeting in Newhalen recently, you did an excellent job identifying the task ahead of you with the Watershed Assessment Project. I was delighted that the EPA had provided an opportunity for the tribes to participate. As I understood it, you indicated that it would take a tribal request to participate. I met with my Tribe, the South Naknek tribal Council, and reported what you indicated. They would like to participate and have asked that I represent them if their request to be included on the Panel were honored. I am writing on behalf of the Village Council and are requesting that South Naknek Village Council be added to the tribal group serving on the advisory committee (?) in the watershed assessment study.

Sincerely,

Trefon Angasan

APC Chair

South Naknek Tribal Council member
